Wavebird valuation summary - GOOG

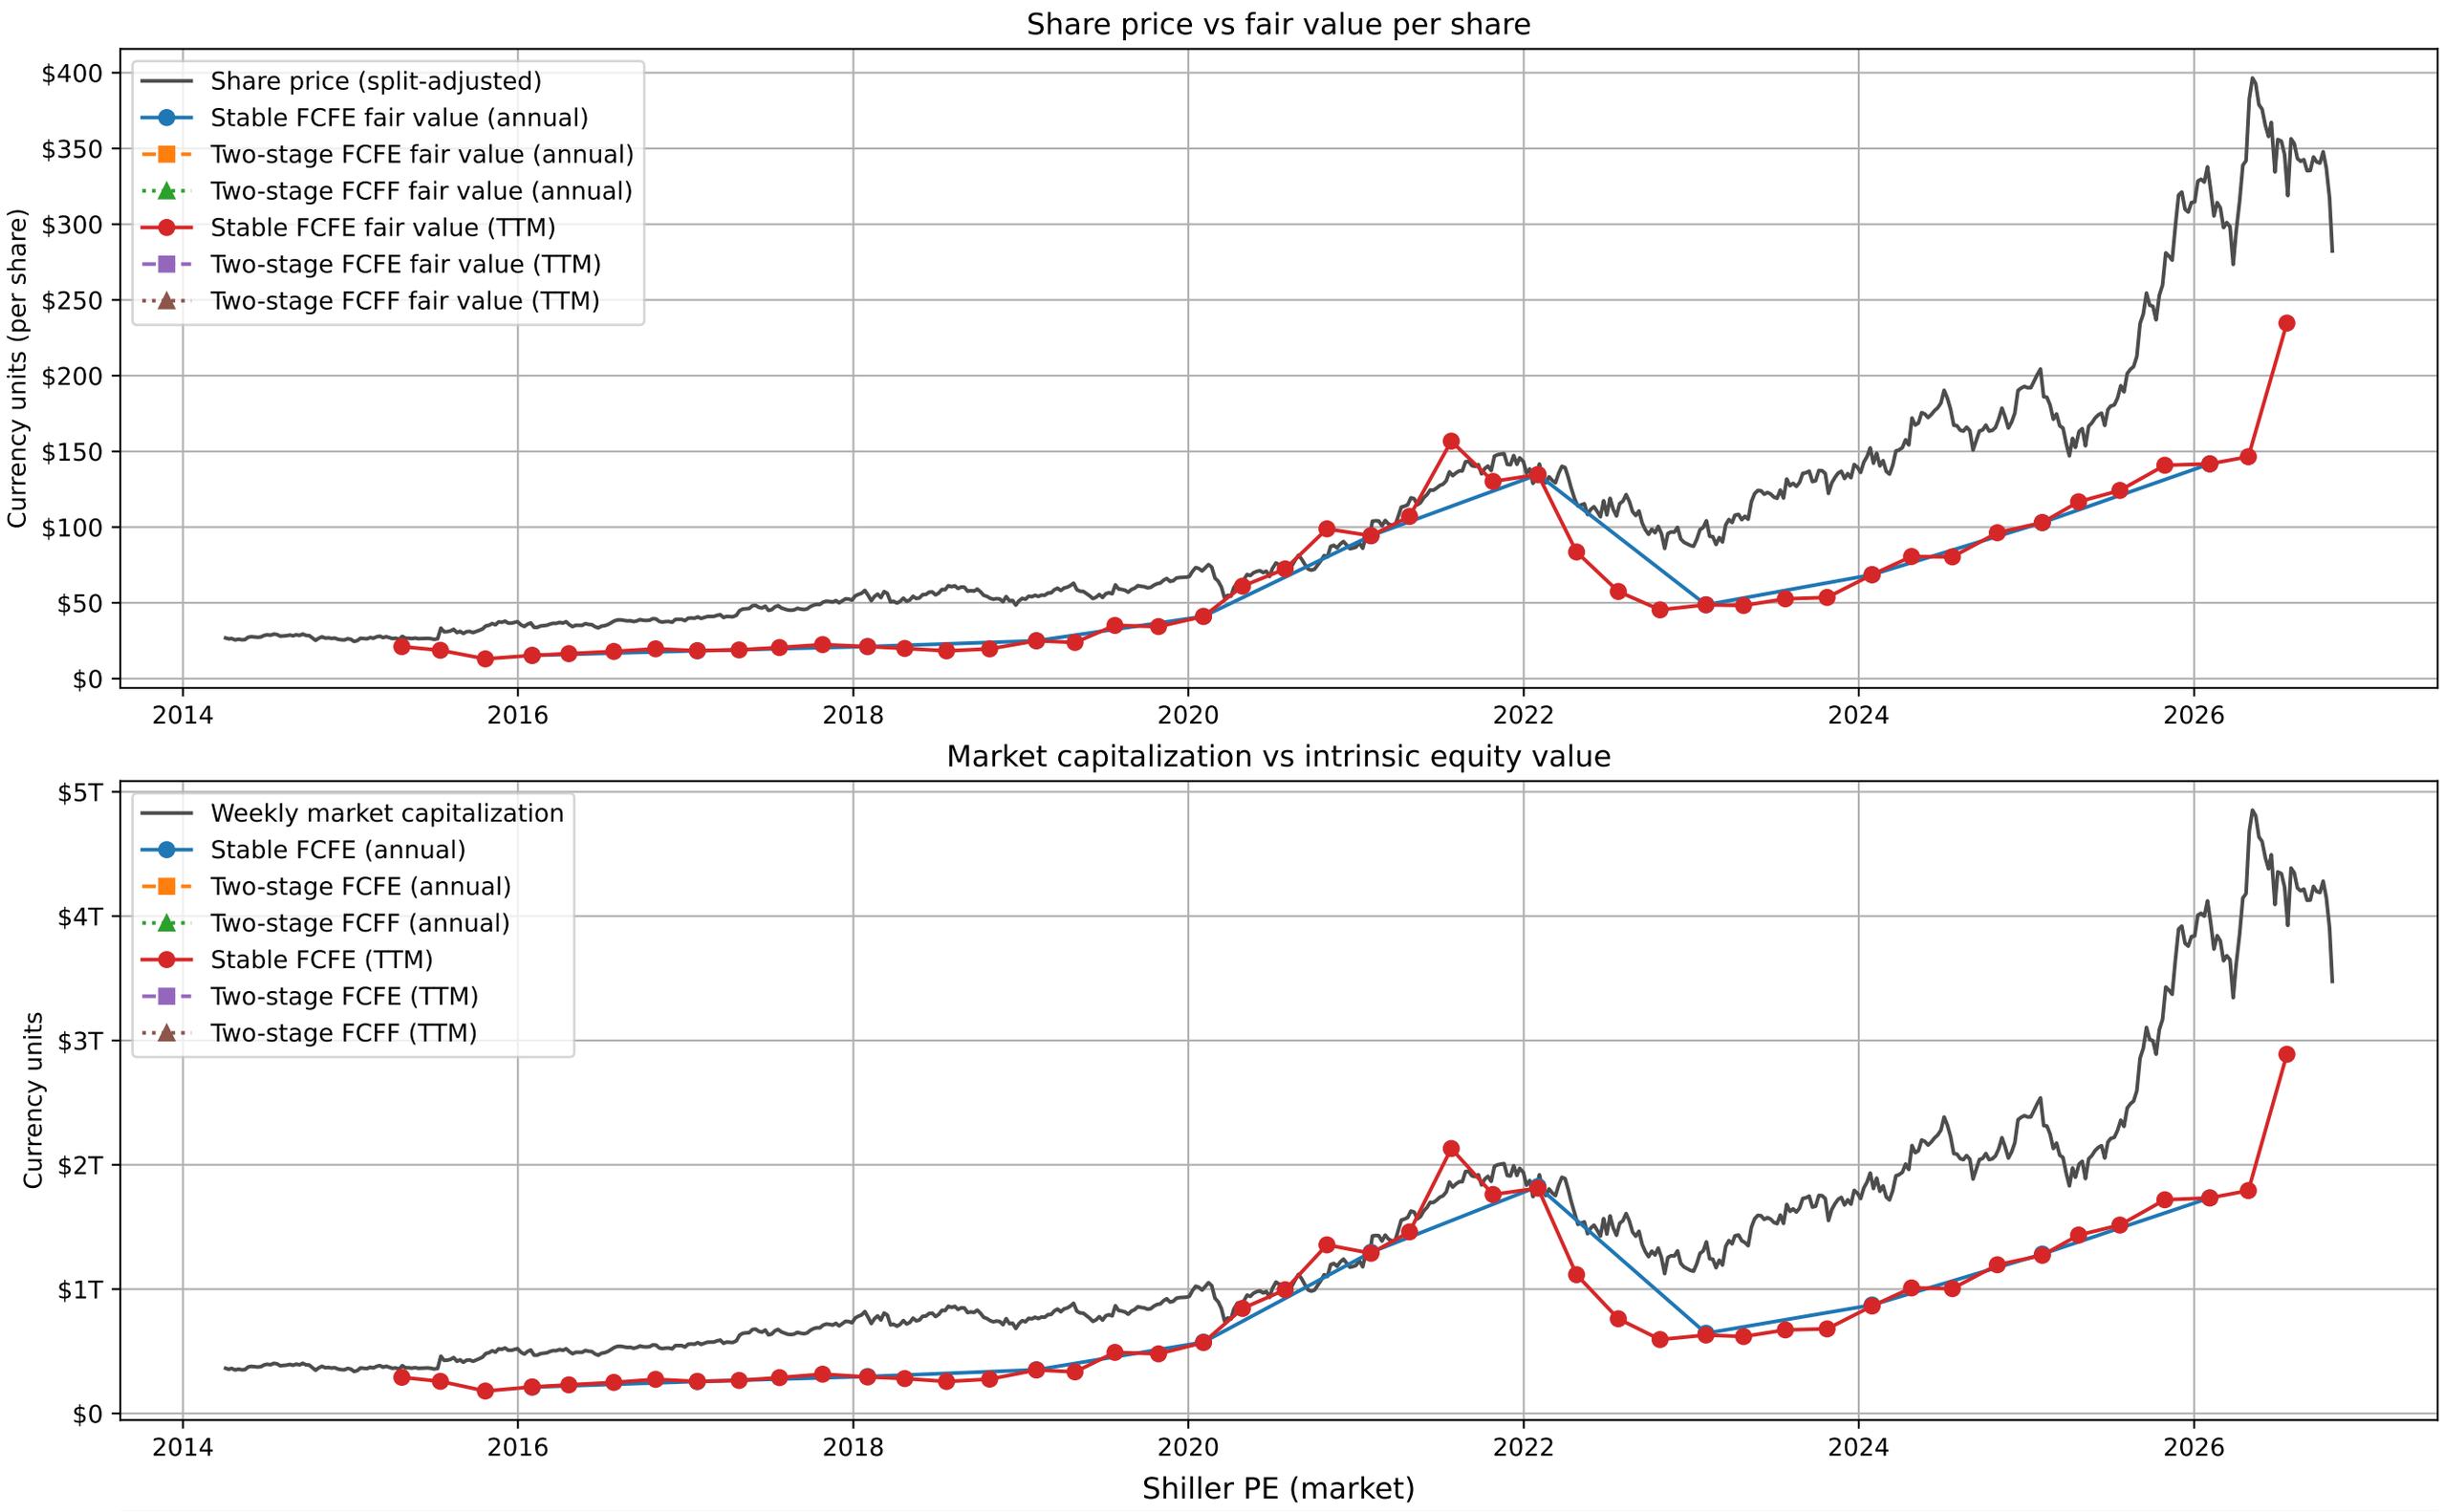

Model	Fair value/share	Buy below (MOS)	Discount	Verdict
Stable FCFE	$220.91	$165.68	-27.80%	FAIL
Two-stage FCFE	N/A	N/A	N/A	unavailable
Two-stage FCFF	N/A	N/A	N/A	unavailable

GOOG last traded at $282.32 on 2026-10-30.
The screen is inconclusive: some models could not produce a value.

Stable FCFE says one share is worth $220.91. With your 25% margin of safety you would want to pay at most $165.68; today the price is 27.8% above fair value - this model fails your test.
Two-stage FCFE could not produce a value: two_stage_fcfe unavailable for GOOG 2026-06-30: missing nwc.
Two-stage FCFF could not produce a value: two_stage_fcff unavailable for GOOG 2026-06-30: missing nwc.

These figures assume the business grows 6.0% a year for 5 years and 2.5% forever afterwards. The stable stage assumes a 12.0% return on equity and a 10.0% return on capital. Discount rates use the Damodaran risk-free rate and equity risk premium with the stock's measured beta.
